

# Post-survey

The purpose of this survey is to investigate your experience and collect your suggestions towards improving the TDD approach in OSS project. Your responses will help us improve the TDD workflow in the future.

This survey is anonymous.

**\* Required**

## 1. 1. Which is the most difficult part of your project? \*

*Mark only one oval.*

- ☐ Setting up Expertiza environment
- ☐ Understanding object dependencies
- ☐ Refactoring existing code base
- ☐ RSpec syntax
- ☐ Following TDD approach (only for TFD teams)
- ☐ Communicating with project mentor
- ☐ Communicating with partners
- ☐ Other: \_\_\_\_\_

## 2. 2. Usefulness of the test skeletons. \*

*Mark only one oval.*

	1	2	3	4	5	
Not useful at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very useful

## 3. 3. (For the TDD group only) To what extent did you follow TDD process?

*Mark only one oval.*

	1	2	3	4	5	
Very strictly	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Not at all strictly

## 4. 4. If you used VirtualBox image and RubyMine we offered to you, please write down your student id (for data collection purpose only).

\_\_\_\_\_

**5. 5. Tell us any concerns, suggestions, ideas about using TDD approach in course projects.**
